Notification #

Thank you for contacting Consumers Energy for your energy needs. Please note the Notification Number (above right) and include it on any correspondence or payments you send.

Prior to beginning detailed engineering for Input Address Here, it is necessary for Consumers Energy to determine if there are any site conditions which could require Consumers Energy or any of its contractors to take special precautions during construction or future maintenance of our electric and/or gas facilities. Please provide us with any and all information available regarding the nature and extent of known or suspected environmental contamination, buried tanks, or other recognized environmental conditions present on this site. This information is needed both to protect utility workers and to help us to design an installation which will avoid environmental problems as much as possible. Documents could include, but are not limited, to Phase I and 2 Environmental Site Assessments, Remedial Investigation Reports, Due Care Plans, Baseline Environmental Assessments, Remedial Action Plans and any listing of the site under Part 201 or Superfund. If the same information is reflected in several reports, we may not need all of the reports, provided that you supply information sufficient for us to understand fully the location and nature of the issues, including levels of any contamination. Your timely response will ensure that we can proceed with the detailed engineering necessary to provide you with service.

If there are no recognized environmental conditions at the premises, please sign below and return this letter to the address listed above.

If you have any questions regarding this letter, please feel free to call me at Phone Number.

Sincerely,

Designer/Coordinator/System Owner Name Here

I hereby certify that there is no known contamination above generic residential standards and no other recognized environmental conditions on the premises where service has been requested.
