## CONTRACT FOR ELECTRIC SERVICE TERMS AND CONDITIONS

It is further agreed that:

1. This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between them in relation to electric distribution service at the facility service location stated above, except as contained herein. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company's written consent; any such attempted transfer without the Company's written consent shall be void.
2. The Company, its agents, employees and authorized contractors shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer's said premises.
3. This Agreement may be executed and delivered in counterparts, including by a facsimile or an electronic transmission thereof, each of which shall be deemed an original. Any document generated by the parties with respect to this Agreement, including this Agreement, may be imaged and stored electronically and introduced as evidence in any proceeding as if original business records. Neither party will object to the admissibility of such images as evidence in any proceeding on account of having been stored electronically.
4. **For customers on the Energy Intensive Primary Rate (EIP) Rate:** With Customer approval, the Company may equip Customer facilities with the system, which includes site devices owned by the Company that can enable direct load management, power metering, data collection, near real-time data communication and internet-based monitoring. There shall be no cost to the Customer associated with the system equipment or installation of the system equipment. The Company reserves the right to remove the system equipment if customer elects to switch from the EIP rate to another primary rate.
