CONTRACT FOR PARTICIPATION
IN THE VOLUNTARY LARGE CUSTOMER
RENEWABLE ENERGY PILOT PROGRAM
OPTION A

PART I

(Customer Name)

Subscription Information:

Customer Facility Name: ____________________________________________

Contract Account Number: __________________________________________

Projected Annual Maximum Demand (MW): ______________

Annual Projected Energy (MWh): ____________ Year 1 ____________ Year 2 ____________ Year 3
(The Annual Projected Energy (MWh) amount is requested for Consumers Energy Company’s planning purposes only.)

Subscription Level: ________ %
The subscription level is expressed as a percentage of energy use. Minimum participation match is 20% of energy use for each enrolled customer account and customer may select participation levels in 5% increments, up to 100% of their total energy use.

Subscription Term: ______________ 3 Years ______________ 20 Years ______________ Renewal

Use this section if subscribing more than one facility.

Customer Facility 2 Name: __________________________________________

Contract Account Number: __________________________________________

Projected Annual Maximum Demand (MW): ______________

Annual Projected Energy (MWh): ____________ Year 1 ____________ Year 2 ____________ Year 3

Subscription Level: ________ %

Customer Facility 3 Name: __________________________________________

Contract Account Number: __________________________________________

Projected Annual Maximum Demand (MW): ______________

Annual Projected Energy (MWh): ____________ Year 1 ____________ Year 2 ____________ Year 3

Subscription Level: ________ %

Billing Information:

(Please select a Rate option)

☐ Standard Rate
   The customer will pay all applicable Full Service monthly standard tariff charges for their Full Service rate, plus the LC-REP Program subscription charge based on the customer’s selected participation level, monthly usage, program supplied generation and Subscription Term. The customer will be billed on a calendar month basis.

☐ Market Index Provision
   Full Service customers served on Rate GPD, who elect to match a minimum of 85% of their total energy use, in the previous 12-month period, with renewable energy may substitute the Real Time Locational Marginal Price (RT-LMP) at Consumers Energy’s Zonal Load Node, plus a Market Settlement Fee of $0.002 per kWh, for the standard rate power supply energy charges. Customers selecting the Market Index Provision shall be responsible for all capacity and non-capacity Power Supply charges included in the standard Full Service GPD Rate. Customers may select the Market Index Provision on an annual basis for the program, after providing a 60 day advance notice.

Renewable Energy Credit (REC) Treatment:

(Please select a REC Treatment option)

☐ Retire REC
   Consumers Energy will track and retire the RECs via the MiRECS system associated with the customer’s subscription.

☐ Transfer REC
   Consumers Energy will transfer the RECs via the MiRECS system associated with the customer’s subscription to the customer.

Subscription Term:

Three (3) Year or 20 Year Subscription Term option at $0.0450 per monthly kWh at the subscribed percentage met with program-supplied generation.

Re-enrollment: If the customer elects to re-enroll in the Program after their initial or subsequent Subscription Term ends, then they will pay their current subscription charge plus a 2% increase for the subsequent enrollment term. The 2% increase will be limited to 4 re-enrollments, after which it is subject to increase at the Company’s discretion. If the customer elects to re-enroll under the 20 year Service Agreement option after their Service Agreement term ends, then there shall be no increase to the customer’s current subscription charge for the subsequent enrollment term.

The contract will become effective the date the contract is signed and will continue through the selected Subscription Term.
PART II

Such service shall be governed by the Company’s Rate Book and such future revisions and amendments thereof, supplements thereto, or substitutions therefore as may be filed with and approved by the Michigan Public Service Commission during the term of this Agreement.

Terms and Conditions:
Consumers Energy Company (“Company”) agrees to supply, and the Customer agrees to purchase hereunder, all energy usage identified in Part I in accordance with the Company’s Voluntary Large Customer Renewable Pilot Tariff, a copy of which is attached hereto and made a part hereof, and in accordance with such tariff amendments thereto as may be filed with and approved by the Michigan Public Service Commission (MPSC) during the term of this Agreement.

The electric energy to be supplied hereunder shall be alternating current and shall have the characteristics identified in Part I. Delivery shall be made at mutually agreeable points upon the Customer’s premises. It shall be metered by meters furnished, installed and maintained by the Company. A location for the metering equipment, suitable to the Company, shall be provided by the Customer and adequate protection afforded to avoid damage thereto, tampering or interference with such metering equipment. The Company shall make periodic tests of its meters and keep them within accepted standards of accuracy.

Such service shall be governed by the Company’s Schedule of Rates Governing the Sale of Electric Service and such future revisions and amendments thereof, supplements thereto, or substitutions therefore as may be filed with and approved by the MPSC during the term of this Agreement. A copy thereof will be furnished to the Customer upon request.

This Agreement inures to and binds the heirs, administrators, successors and assigns of the respective parties hereto. There are no understandings or agreements between the parties to this Agreement in relation to electric service at the Customer’s Site except as contained herein. This Agreement supersedes all previous representations, negotiations, understandings or agreements, either written or oral, between the parties hereto or their representatives pertaining to the subject matter hereof and constitutes the entire agreement of the parties. This Agreement shall not be transferred by the Customer or otherwise alienated without the Company’s written consent; any such attempted transfer without the Company’s written consent shall be void.

The Customer shall furnish, without cost to the Company, a suitable location at each location listed in Part I for the Company’s transmission lines, substations, and/or distribution facilities as may be required to provide electric service to said location. If, during the term hereof, the Customer’s use of said location makes necessary the relocation of said facilities, from the location presently furnished, to another location, the Company shall relocate the same at the Customer’s request, and the Customer shall reimburse the Company for the cost thereby incurred. The Company, its agents, employees, and authorized contractors shall have full right and authority of ingress and egress at all times on and across said premises of the Customer, for the purpose of constructing, operating, maintaining, replacing, repairing, moving and removing its said facilities. Said right of ingress and egress, however, shall not unreasonably interfere with the use of the Customer’s said premises.

The parties to this Agreement agree that the service provided hereunder is subject to the exclusive jurisdiction of the MPSC. The parties agree to attempt to resolve any dispute arising out of this Agreement in good faith. The parties agree that in the event they are unable to resolve any dispute arising out of this Agreement, any claim arising out of this Agreement and service provided hereunder shall be made exclusively at the MPSC.

This Agreement may be executed and delivered in counterparts, including by a facsimile or an electronic transmission thereof, each of which shall be deemed an original. Any document generated by the parties with respect to this Agreement, including this Agreement, may be imaged and stored electronically and introduced as evidence in any proceedings as if original business records. Neither party will object to the admissibility of such images as evidence in any proceeding on account of having been stored electronically.

Billing:
Customer’s subscription charge is a dollar per kWh monthly charge applied to the portion of energy of Customer’s account(s) designated to participate in the LC-REP Program and is designed to fully recover the costs of the program. Should the amount of subscribed energy for any given month exceed the energy generated from the wind facility, the available resource will be allocated in a prorated fashion according to the amount of energy subscribed by participants in that month. Any underage will be accommodated through the application of additional energy in future months allocated in a prorated fashion according to the amount of energy owed to participants as available until the subscription is made whole, up to the Michigan Public Service Commission approved limit. If a quarterly review demonstrates that the renewable facilities has a shortfall in output versus total subscription for the program, then the Company will provide, at Customer’s option and cost, RECs in an amount that satisfies Customer’s share of the shortfall.
Subscription Charge:
$0.0450 per kWh for all kWh subscribed and met with program supplied energy.

Wind Capacity Credit:
Customer will be provided a monthly dollar per kWh capacity credit based on Customer’s renewable energy subscription under this program and the value of the auction clearing price in the annual Midcontinent Independent System Operator’s Inc. (MISO) capacity auction for the planning period. The annual MISO planning resource auction takes place in March with the revenue from system capacity being updated for the next twelve months beginning June 1st of each year. The annual reconciliation will be completed by the end of March for each proceeding program year.

Wind Energy Credit:
Customer will be provided a monthly dollar per kWh energy credit based on the Real Time Locational Marginal Price (RT-LMP) at the MISO assigned Load Node for the generated output of the designated renewable facilities. The credit will be based on Customer’s pro rata share of the energy produced from the designated renewable facilities and Customer’s subscription level. Credits will be reconciled annually based on MISO settled Day Ahead and Real Time LMP related payments for the renewable energy.

The Wind Energy and Capacity Credits may be paid to Customer via bill credit or direct payment, at the Company’s discretion.

Environmental Attribute Treatment:
REC transfers and/or retirement will take place by March 31 of the following year annually. An attestation will be provided by March 31 to participating customers indicating the volume and serial numbers of RECs transferred and/or retired.

Early Termination of Contract:
Customers who choose to terminate their service agreement of the LC-REP Program early will be required to take service under the existing Rate Schedule for the remainder of their LC-REP contract and will be assessed a Company determined early termination fee unless the terminating customer’s subscription level is adopted by another eligible customer. Should a customer cease to be a Full Service customer, then the Customer will be assessed a Company determined early termination fee, unless the terminating customer’s subscription level is adopted by another eligible Customer.
