

Make Energy Savings the Star of Your Home

Upgrade to ENERGY STAR[®] certified appliances for less

ConsumersEnergy.com/appliance

What makes ENERGY STAR products so special?

To earn the ENERGY STAR label, products must meet strict energy efficiency standards set by the U.S. Environmental Protection Agency or the U.S. Department of Energy.

Since these products use less energy, they save you money and help protect the environment by causing fewer emissions. Plus, you get all the features and quality that keep your home running.

Save even more with rebates

We make it easy to reduce the upfront cost of summer essentials like pool pumps, dehumidifiers, air purifiers and room air conditioners. Just purchase qualifying equipment from any retailer, then head over to ConsumersEnergy-appliancerebates.com to fill out a quick application and we'll send you a check in six to eight weeks.

REBATE AMOUNTS

Pool Pumps

\$350

Room ACs

\$20

Air Purifiers

\$50

Dehumidifiers

\$20
