Smart solutions for your home

Looking to keep your cooling costs under control, but don't know where to start? ENERGY STAR® certified smart thermostats are the perfect teammate for tackling high energy use. Smart thermostats auto-adjust based on outdoor temperatures and your own preferences and can be controlled from anywhere.

Plus, this month, **we're increasing our rebate on all smart thermostats to \$75**. Shop great brands like Nest, Honeywell or ecobee and you can pair any additional sales, scoring you a new thermostat for as low as \$4 at our Online Store.

This summer is the perfect time to upgrade and start saving energy and money right away. Head over to [SummerPromo.ConsumersEnergyStore.com](https://www.consumersenergy.com/promo/summer) to get started.

This offer is valid for Consumers Energy residential natural gas customers only. Not valid for new home construction. No cash value. The \$75 rebate is available through July 29, 2021, or while quantities last. Price does not include sales tax or shipping costs. Thermostat prices may vary throughout the month, depending on active sales or offers.
