Count on Us®

Help Yourself to Extra Comfort

The energy-saving products and expertise included in your free assessment will help make your home more comfortable and efficient—so you can help us reshape Michigan's energy future.

Your free upgrades may include:

- LED bulbs and nightlights
- Programmable thermostat
- High-efficiency showerheads
- Water heater pipe wraps
- Water-saving faucet aerators

Schedule now at
ConsumersHomeEnergy.com
with the code **FALLCOMFORT.**

Program funds are limited to and are available in select geographic areas on a first-come, first-served basis. Eligibility for each measure is determined at the time of the appointment. To be eligible, the location where the audit is performed must receive natural gas and/or combination (natural gas and electric) service from Consumers Energy, and the account number must be active. Past participation in the Home Energy Analysis or Helping Neighbors programs precludes account number from participation in the program. An adult 18 years or older must be present at the time of the appointment.
