

SUPPLIER ENGAGEMENT

Powering Partnerships that Deliver More

Engaging Suppliers, Powering Opportunity

At Consumers Energy, we are committed to building meaningful partnerships with a wide range of suppliers. Our Supplier Engagement Program focuses on creating access, strengthening relationships, and driving economic impact across the communities we serve.

A Company for Everyone

As a business of more than 8,000 employees, we are committed to creating an environment where all suppliers have the opportunity to compete and succeed.

- We promote fair and open access to opportunities
- We value a broad supplier base aligned to our commitment to people, planet, and prosperity
- We actively engage suppliers across industries to drive innovation and performance
- We invest in building strong, sustainable supplier partnerships

Connecting Suppliers to Opportunity

We believe strong partnerships drive innovation, resilience, and better outcomes for our customers. Our Supplier Engagement Program:

- Encourages participation from businesses of all sizes, capabilities, and backgrounds
- Builds relationships that foster long-term growth and collaboration
- Supports economic development across Michigan

Supplier Recognition & Certification

While certification is not required to do business with Consumers Energy, we recognize suppliers that hold certifications from third-party organizations. Suppliers may choose to upload certification information during registration to help us better understand their business and capabilities.

Get Connected

We offer multiple ways for suppliers to engage with Consumers Energy, including:

- Supplier outreach events and education sessions
- Networking opportunities
- Ongoing communication to highlight upcoming needs
