

Energy you can count on.

Hydroelectric power helped spark our journey nearly 140 years ago. As we work to use more renewable generation sources (back), when and how you use energy also matters. Rate options (inside) can help every home and business save more energy and money — and bring us all one step closer to a brighter, cleaner future.

Consumers Energy

Count on Us®

Para ver en español: [ConsumersEnergy.com/Translate](https://www.consumersenergy.com/Translate)

Save energy,
save money.

Using less energy helps us build a more reliable energy future — and gives you more control over what you pay. Your current rate is listed under Rate Information on your bill.

Complete rate schedules are available upon request or online. You can choose a rate plan that works best for how you use energy — now and in the future.
